

Download Standing Order Plan

Add frontlist titles to your digital library collection – automatically

Simplify Collection Development

OverDrive's Download Standing Order Plan allows librarians to select a desired amount of the most popular audiobooks and eBooks from publishers of their choice to be automatically added each month to their digital collection. Sign up for OverDrive Download Standing Order Plans and start realizing the benefits today.

- Add frontlist titles to your collection as soon as they are available (upon release or even before)
- Save time – You don't have to research new titles each month because you've selected top titles ahead of time
- Increase interest in your online collection by having soon-to-be-released titles available for holds

Convenient and customizable

New titles are added to your online collection without any processing, so you have more time to spend on other important tasks while still maintaining control of your collection. You design the plan to fit your needs; add as many or as few titles as you wish and keep the titles coming for as long as you choose. You get the best of both worlds – the latest releases automatically added to your collection, without extra work!

When you sign up for OverDrive's Download Standing Order Plans, you select the publisher plan and how many units of each frontlist title you wish to receive each month. New titles will appear on your website when they are available -- even before their release date -- so patrons can put holds on the titles they want to check out. You'll create anticipation for these titles and increase awareness of your current collection all to maximize circulation.

Top titles to maximize circulation

Titles include the frontlist audiobooks and eBooks each month from leading publishers. Participating publishers include Books on Tape, Listening Library, Blackstone Audio, Brilliance Audio, BBC Audiobooks America, HarperCollins, Hachette Book Group USA, and Tantor Media.

Current OverDrive library partners can log in to our admin portal, Content Reserve (www.contentreserve.com) to sign up for Download Standing Order Plans today. If you are new to OverDrive, contact us to learn how your library can join the OverDrive network!

Download Standing Order Plan

Sign up today! It's easy.

Log in to OverDrive's
admin portal,
Content Reserve

Click the Collection tab
then Select "Download
Standing Order Plans"

Select "Create New Plan"

Choose a publisher plan

Specify # of units of each
title to receive each month

Click "Save"

Titles will automatically appear in your collection as they are released (or before) and you will be invoiced each month. You can revise your Download Standing Order Plan at any time.
